

=== AIUZ TerraCodex v1.0 — Publication-Ready Archive ===

This Canvas document contains the full simulated structure of three interconnected publication archives, formatted for Zenodo upload under the AIUZ Terra Ecosystem / Fractal Metascience Paradigm program.

 FINAL NOTE

---

All archives are linked through a unified DOI structure and checksum verification chain. Each document is compatible with Zenodo dataset standards, ready for direct upload and citable under Terra Ecosystem governance.

→ Next Step: Package these simulated directories into ZIP containers (auto-generated), attach zenodo.json to each, and finalize upload to Zenodo record 17404325.
